FOREWORD

The Georgia Statistical Abstract, which is published biennially, brings together in one reference volume the most pertinent information available about the state of Georgia.

Although the orientation of the Abstract is primarily economic -- with special emphasis upon economic resources -- other community and area resources are encompassed in the Government section and in the Education and Law Enforcement sections. Several parts of this Abstract are revised and expanded, particularly the Population and Vital Statistics sections, the chapter on Income, Gross State Product, and Wealth, and the chapter on Law Enforcement.

Special acknowledgement is made of the efforts of the following persons who contributed to this major undertaking: Suzanne Lindsay, research coordinator, for extensive revision of major sections; Lynda Minor, student assistant, for verifying all the data; and Mary Evans, administrative secretary, for computer typesetting the Abstract in its entirety.

Since most of the data in the Abstract are taken from sources outside the Division, the responsibility for the accuracy and limitations of the original data belongs to the original sources. For the selection of the data and their reproduction, the Division of Research accepts the responsibility.

[a] Personal income = net earnings plus property income and transfer payments. Net earnings = wages and salaries, proprietors' income, and other labor income, minus social insurance contributions and plus a residence adjustment. Estimates are based on the 1972 SIC.

[b] Includes dividends, interest and rent.

[c] Personal contributions for social insurance are implicitly included in the estimates of labor and proprietors' income. However, they are not included in personal income and so are subtracted from earnings in the computation of personal income.

[a] The total personal income of an area reflects all income received by, or on behalf of, persons (including nonprofit institutions) resident in that area, less personal contribution for social insurance and without deduction of personal taxes.

[b] Net earnings by place of residence; derived by subtracting personal contributions for social insurance from total earnings by place of work, and adding a residence adjustment factor.

[c] Includes rental income and residence adjustment for farm proprietors and capital consumption adjustment for rental income of persons.

[d] Includes payments by government and business to individuals, and payments to nonprofit institutions. See Tables 24.201 and 24.203 for detail.

[a] Includes total cash receipts and other income of individual proprietors and corporate farms.

[b] Represents total net income of individual proprietors and corporate farms; derived by subtracting production expenses from gross farm income and adding the value of inventory change.

[c] Derived by subtracting corporate farm income from net farm income, and adding statistical adjustment factor.

[d] Derived by adding farm labor income (wages and salaries, perquisites, and other income) to net farm proprietors' income.

(L) Less than $50,000. Estimates are included in totals.

Note: Offense totals based on all reporting agencies and estimates for unreported areas. Although arson has been included in Part I trend and clearance data since 1980, sufficient data are not available to estimate totals for this offense. See Table 23.110 for Georgia data on reported arson cases.

[a] 1983 data revised; 1983 and 1984 data may not be entirely comparable to previous years because of adjustments for incorrect reporting in Chicago, Ill.
